NIKITHA V

PTHON FULL STACK DEVELOPER

8940966033 | nikitha.vettriselvan@gmail.com | linkedin.com/in/nikitha26 | Chennai, Tamil Nadu

Professional Summary

Information Technology graduate with hands-on experience in full-stack web development using Python, Django, Flask, JavaScript, and SQL. Skilled in building web applications, working with databases, and implementing user authentication and real-time features. Comfortable with Git/GitHub and eager to grow as a software engineer.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript, REST APIs
- **Frameworks & Libraries:** Django, Flask
- **Databases:** SQL, SQLite
- **Tools & Platforms:** Git, GitHub, Google Colab, DialogFlow, Arduino IDE, IoT (ThingSpeak), VS code

Projects

AI-Assisted Sewage Monitoring System *May 2026*

Python, IoT, ThingSpeak, Google Colab

- Developed an IoT-based sewage monitoring system integrating sensors with ThingSpeak for real-time data col-lection and transmission.
- Built an interactive dashboard to visualize live sensor data and generate AI-driven insights using Google Colab.

SquadSync – Sports Partner Finding Web Application *Nov 2025*

Django, HTML, CSS, JavaScript, SQLite

- Developed a full-stack web application enabling users to find and schedule matches with sports partners.
- Implemented user authentication, profile management, player search, and match scheduling features.
- Designed and managed relational backend databases using Django ORM and SQLite.

Real-Time Chat Application *May 2025*

Python, Flask-SocketIO, HTML, CSS, JavaScript

- Built a real-time messaging application using Flask-SocketIO with WebSocket-based communication.
- Implemented seamless bi-directional, low-latency messaging between multiple concurrent users.

Education

E.G.S. Pillay Engineering College *2022 – 2026*

B.Tech, Information Technology – CGPA: 9.07

J. Jeya Matriculation Higher Secondary School *2019 – 2022*

HSC – 93% | SSLC – 94%

Certifications

- Young Python Professional – Infosys Springboard
- Python Full Stack Development – Datanerdz.ai
- Mobile App Development – Datanerdz.ai
- Cybersecurity Workshop – NIT, Trichy

Achievements & Leadership

- **Academic Topper Award** (2024, 2025, 2026) – Secured top academic performance for three consecutive years.
- **Secretary, IT AURA'25 Symposium** – Coordinated end-to-end event planning and execution for a departmental technical symposium.
- **Co-inventor of a registered design patent** for an autonomous water surface cleaning robot.
- Solved **728+ programming problems** on SkillRack, demonstrating strong problem-solving skills.
